

New VNS Health Website Simplifies the Referral Process

In addition to being the date when VNSNY officially became VNS Health, May 18, 2022, also marked the go-live date of the organization's new website, vnshealth.org. Drawing on input from consumers and health care experts, the website's user-friendly design allows VNS Health's patients, members and health care partners to quickly find the information they need. Key features include:

- Descriptions of all VNS Health programs, services and health plans, as well as payment options for different types of care.
- A section for health care professionals with detailed information on making referrals to VNS Health; provider platforms; VNS Health Professional Solutions; and more.
- Caregiver support services, including a Health Library with a wide range of articles for patients and their families.

- A Community Calendar of upcoming health-related events from VNS Health.
