We're incredibly proud to share that our Health Plan was named in *Crain's New York Business's* “2024 Best Places to Work in NYC” list.

This list highlights organizations that have excelled at adapting to rapid change, and that have created exceptional work

environments for their employees through comprehensive benefits, flexible policies, and strong collaboration. We were selected for this list based largely on feedback from our own team members via an independent survey led by *Crain's*, including questions on employee experience, technology, and benefits.

This recognition reflects the fact that VNS Health is an outstanding place to work. We thank all our team members for this great honor – their commitment to our culture, values, and mission have been instrumental in achieving this designation.

For over 130 years, VNS Health has led the way as an innovator in home and community health care. With more than 10,000 team members, we use expertise, compassion, and commitment to provide and manage care for millions of individuals who want to live, age, and heal in their homes, connected to family and community. Today, our offerings include five health plans designed to meet the specialized needs of people with Medicare and/or Medicaid.

Crain's held a celebratory event on September 18, 2024. Several of our team members attended the event including EVP and Chief of Health Plans John J. Burke, as well as EVP and Chief People Officer Gail Thakarar.
